

Corporate Overview

"Our company was formed based on the belief that there has to be a better way to deliver IT-centric services and solutions. It was founded on the principle of partnership with our customers based on trust, value, innovation and continuous improvement." Haynel Rose, CEO

ERTechnologies is a global IT services organization that provides customers with innovative Oracle and cloud solutions that solve their business and IT problems. We maintain long term partnerships with these customers as the result of the high quality solutions that our experts design, deploy and manage. These solutions are developed using our proprietary global delivery model under the ITIL and CMMI frameworks.

Cloud

Migrating your infrastructure and applications to the cloud can reduce costs and improve time-to-value, IT flexibility, and agility. ERTechnologies has the experience to guide you through the cloud transformation process. We will help you to:

- Develop a strategic roadmap and cloud-based architecture with our Cloud Advisory Services
- Deploy a cloud environment with our Cloud Implementation Services
- Continually optimize your cloud environment with our Cloud Managed Services
- Recommend and deploy options for Oracle in the Cloud while maintaining compliance and control

Our Competencies

As an Oracle Gold Partner and an AWS Advanced Consulting Partner, ERTechnologies has the knowledge, skills and experience to deploy Oracle enterprise applications in the AWS cloud. ERTechnologies was the first Oracle partner to also attain the level of AWS Advanced Consulting Partner and Managed Services Partner and one of the first to receive the AWS Oracle competency.

Analytics

Cloud Analytics Integration

We offer comprehensive Business Intelligence (BI) solutions for presentation of accurate information anywhere, anytime in a controlled, secure manner. With expertise in Oracle Business Intelligence Applications, we can help you to:

- Build BI solutions based on standard data models and a library of custom data models we developed
- Migrate from an overwhelming array of spreadsheets and transactional system reports to Oracle BI Analytics
- Deliver information faster with the Oracle Exalytics engineered system
- Upgrade from Oracle BI Enterprise Edition (OBIEE) 10g to Oracle BI 11g Foundation Suite
- Gain valuable intelligence from unstructured data using Endeca Information Discovery
- Create pixel-perfect reporting using Oracle BI Publisher

Our Competencies

- Oracle Specialized Partner for Oracle BI Foundation
- Oracle Business Intelligence Applications

Integration

- Oracle E-Business Suite R12

ERTechnologies delivers seamless integration of loosely coupled applications and underlying IT systems. With proven expertise in service oriented architecture (SOA), our team will help you to:

- Leverage pre-built, standard templates and process integration built using Oracle Application Integration Architecture (AIA)
- Establish and maintain an effective governance model to provide control of your SOA implementations
- Integrate financial planning with your Business Intelligence solutions using Hyperion Enterprise Performance Management and Oracle Business Intelligence Foundation Suite

Our Competencies

With extensive experience in Oracle SOA Suite 11g, Oracle E-Business Suite, and Oracle Business Intelligence we deliver integrated solutions across the enterprise. We also have the application development and middleware technology expertise to deliver integrated solutions
